### 2. Cannabidiol (CBD) Isolate: Unleashing the Full Potential

The CBD isolate used by Bio Heal is devoid of any THC, offering all the therapeutic benefits associated with CBD without any psychoactive effects. As a result, users can experience the full potential of CBD in its purest form.

### 3. Premium Carrier Oils: Enhancing Bioavailability

To maximize the bioavailability and efficacy of CBD, Bio Heal utilizes premium carrier oils in their products. These oils, such as MCT (Medium-Chain Triglyceride) oil derived from coconut, serve as an excellent medium for CBD absorption into the body. The lipid nature of carrier oils helps CBD dissolve easily, allowing for efficient absorption and utilization by the body. Bio Heal's choice of high-quality carrier oils ensures optimal delivery of CBD's therapeutic properties.
