Wicker, fabric, plastic or wire baskets fit into the shelves like drawers to conceal the items you need to have readily available but want tucked away, out of sight. Baskets hold utensils, smaller appliances, dish towels, canisters and other kitchen items without the cluttered look of things here and there on the countertops, limiting your work space.

Basket Benches Basket benches are another great decorative and useful touch for a kitchen. They are essentially finished wooden bench seats with two shelves underneath, the bottom shelf being able to hold up to three decorative storage baskets.

These benches can function as table seating, particularly for a breakfast nook, or as a stand-alone seat in a larger or separate kitchen. Basket benches make a great place to sit down while chopping veggies or preparing lunches, party sandwiches or appetizers. If you have extra wall space or floor space, you might consider basket benches for children or grandchildren to sit on while they eat, play or watch television, so you can uninterruptedly get the breakfast, lunch or dinner, or make your shopping or chore lists.
